moneymint.com is one of India's leading blogs on financial inclusion, microfinance, and digital money. The blog was started in the year 2008 and has been publishing regular news, views, and articles for the last 9 years.

you would be amazed to know that paypal is currently paying \$5 to download the Honey app and use its browser extension. People like this app because all they need to do is put their favorite items in the cart, and they notify you as soon as some deal comes on it, which can help you save a lot of money.

these apps are legit and they make payments directly to your paypal account. You don't have to exchange points for coupons or other rewards. You'll likely never use this. This is a list that gives you the good stuff, money to spend on the things you want to spend it on.

you can download its app and add on its extension on your web browser. All you need to do is browse the app before shopping. After that, click to add the offers you wish to benefit from. On iBotta, you will see numerous promo codes and deals on the products you want to buy. Along with all this, they also provide users with free paypal money as well.

you can take surveys of the brands you use every day, which means that you can fill out the survey without any trouble. Creating a profile is very easy with them, as all you need to do is fill in your personal details and answer some questions to determine the demographic you fit in. This is crucial as they would give you the surveys as per what you select and answer.
